

TRAINING COURSE

Basic NUDURA Installation Course

When?

February 29th, 2012 8:00 AM to 5:00 PM

Where?

AGC-VT - 1 Graves Street, Montpelier, VT 05601

What?

NUDURA is committed to providing the highest level of training, ensuring you get the knowledge you need to get the job done with efficiency and confidence.

The one-day hands-on course covers the use of the NUDURA Integrated Building Technology line, and the basic installation procedures used in the construction field for concrete homes and commercial structures.

- > Understanding general installation of NUDURA concrete forms
- > Placing reinforcement
- > Installation of construction openings
- > Concrete placement
- > Mechanical and interior/exterior finish application

NUDURA Basic Installation Training Course

Hello,

Carroll Concrete and NUDURA Integrated Building Technology would like to announce the scheduling of our next NUDURA Basic Installation Training Course. We are planning to hold the course on Wednesday February 29th, 2012.

NUDURA requires a minimum number of attendees in order to make the course a practical endeavor which includes scheduling a location as well as arranging for the catering of food and beverages for all attendees. The deadline for your confirmed registration will be no later than February 27th, 2012 (see attached form).

The course will begin at 8:00 AM and conclude at approximately 5:00 PM. Pastries and coffee, tea, juice will be provided at the morning break. A light lunch and beverages will follow at mid day. The course will include an educational PowerPoint presentation during the morning followed by a hands-on wall section assembly in the afternoon (indoors, no concrete). Attendees will get to participate in the construction of this section of wall incorporating all of the elements from the presentation utilizing a variety of techniques and assembly methods.

This course is an excellent opportunity for contractors and design professionals to get involved in one of the fastest growing sectors of the construction industry. Insulated Concrete Form construction is rapidly becoming the design and construction method of choice by many architects and engineers for both residential and commercial construction. The growth of ICF construction is leading the industry in new "Green Building" and "sustainable living environments" across the globe. Contractors, design professionals and the end users who have embraced the ICF concept and taken our NUDURA Basic Installation Training Course in the past are benefiting in many ways.

See what NUDURA can do for you: <http://www.nudura.com/EN/ConstructionProfessional/featureproject.aspx>

Carroll Concrete and NUDURA are excited to offer this training to you and hope that all interested parties will be able to attend. We appreciate your continued patronage and look forward to providing you with the best customer service possible.

Please see the attached registration form for additional details or follow this link to register online:

NUDURA Trained Installer Wallet Card Requirements

The following actions *must* be completed for trainees to obtain a NUDURA Trained Installer Wallet Card. *Please read carefully:*

1. Attend a NUDURA Basic Installation Training course.
2. Perform a minimum of two (2) complete NUDURA Integrated Building Technology installations and have your NUDURA Technical Support representative inspect each installation prior to placement of concrete.
3. Following inspection of the NUDURA Integrated Building Technology installations, complete the NUDURA Trained Installer Distributor Sign Off Sheet, and have your NUDURA Technical Support representative submit the information to NUDURA Corporation for their approval, processing and the issuance of the trainee's NUDURA Trained Installer Wallet Card.

Carroll Concrete NUDURA Basic Installation Training Course Reimbursement Policy

Carroll Concrete shall provide a one-time reimbursement of the \$150.00 NUDURA Basic Installation Training course fee, to each trainee following the purchase of \$1000.00 or more of NUDURA branded products. Reimbursement distributions will be as follows:

NUDURA merchandise purchases through a Carroll Concrete Company customer account will result in a \$150.00 credit directly to the Carroll Concrete customer account.

Trainee cash or credit card purchases of \$1,000.00 or more in NUDURA products from Carroll Concrete will result in the issuance of a one-time \$150.00 reimbursement check from Carroll Concrete to the purchaser. Please allow for up to 10 business days to receive your reimbursement check by mail.

Note: Please contact your NUDURA Technical Support Representative at time of merchandise purchase to ensure accurate and timely processing of the course fee reimbursement.

Please direct any questions regarding the above referenced **NUDURA Trained Installer Wallet Card Requirements** or Carroll Concrete's **NUDURA Basic Installation Training Course Reimbursement Policy** to your NUDURA® Technical Support representative using the following contact information:
